Mermaid™

INSPIRATIONAL BATHROOM SURFACES

WHAT MAKES A MERMAID PANEL UNIQUE?

We don't like grout, who does? It takes a long time to apply, it's a nightmare to clean and after a while it just goes mouldy. There's no grout used with our products, so that means no more mould.

Mermaid Brilliance panels give the look of glass, but come with the benefit that they can be cut on-site and require no specialist tools, making your installation quick and easy. Our Metro Tile and Timeless Trade ranges can also be cut simply and quickly on-site, making installation a breeze.

Mermaid panels are so much quicker to fit than tiles that it'll save you money and the effort of getting someone in for long periods of time.

Mermaid panels are easy to keep clean with a simple wipe of a non-abrasive cloth and non-bleach bathroom cleaner.

TIMELESS TRADE

We launched our Timeless Trade range over ten years ago and haven't looked back. Crafted using PEFC certified Plywood core, ethically sourced from France or Spain and decorative HPL, these panels create a watertight solution, which doesn't break the bank.

What is PEFC?

PEFC is the Programme for the Endorsement of Forest Certification, this means that our Plywood comes from sustainably managed forests, recycled and controlled sources. Every purchase of a PEFC-labelled product makes a difference for forests and forest communities across the world.

Made in Britain

Proudly made in the UK, we manufacture these panels at our factory in Perth, Scotland, undertaking the highest quality controls to ensure you can have peace of mind with your panels. We back this up with our 15 Year Guarantee.
